WHY TAKE A CRUISE OVER LAND-BASED TRAVEL

October is Plan a Cruise Month and Cruise Lines International Association (CLIA) is celebrating all cruise travel has to offer by highlighting the benefits of cruising over land-based vacations.

CONVENIENT CRUISING!

Domestic and international ports within driving distance of major cities makes ease of travel and access to a cruise ship a breeze.

Sample different international destinations without the intimidation of foreign airports, hotels, or transportation. See the world and experience new cultures while only unpacking your suitcase once.

DIVERSE DESTINATIONS!

From Fiji to Finland, ocean cruisers can sail to distant destinations around the globe with multiple country stops in one trip.

River cruises offer a more intimate cruising experience with exotic and unique destinations.

BEST RETURN OF EXPERIENCE

See the world within your travel budget under one flat fee and enjoy paradise!
